Full-Stack JavaScript Developer

✉ sojibahmed514698@gmail.com

SUMMARY

Ambitious and detail-oriented MERN stack developer focused on building fast, clean, and secure web apps. Hands-on with React, Tailwind CSS, Node.js/Express, and MongoDB. Passionate about delightful UX, reusable components, and robust APIs.

SKILLS

- Frontend: React, Next.js, Tailwind CSS, DaisyUI, Framer Motion, React Hook Form
- Backend: Node.js, Express.js, REST APIs, JWT, WebSockets (basic)
- Database & Cloud: MongoDB, Firebase Auth/Hosting, Mongoose, Stripe (payments)
- Tooling: Git & GitHub, Vite, Axios, Postman, ESLint/Prettier
- Other: Responsive UI/UX, Protected routes, Role-based dashboards

PROJECTS

- Tourism Management System — Full-stack booking platform with roles (Tourist, Guide, Admin), secure auth (JWT), Stripe payment, tour search/filter, booking management, and dashboards.
- Roommate Finder — MERN app with roommate listings, CRUD operations, likes, and email-based filtering. Clean REST API with MongoDB + Express.
- Personal Portfolio — Animated, responsive portfolio with premium hero, contact form, and a one-click CV download.

EXPERIENCE

Freelance Web Developer — 2024–Present Delivered React + Node projects end-to-end: component-driven UIs, secure APIs, and deployment to Firebase/Netlify.

EDUCATION

Self-taught / Online Coursework — Modern JavaScript, React, Node.js, MongoDB, Git & GitHub.

HIGHLIGHTS

- Built role-based dashboards (Tourist/Guide/Admin) with protected routes and JWT.
- Integrated Stripe for secure payments and receipts.
- Implemented search, filtering, and pagination for better UX.
- Created reusable UI components and motion effects for a premium feel.
